

Independent Market Operator

Explanation in the reason for the degree of urgency

It is not always practicable to consider DSM in assessing system availability. System Management seeks the proposed rule change for sound system security reasons.

3. Provide any proposed specific changes to particular Rules

- a. Revision to clause 3.18.11(aA) from:

The capacity of the total generation and Demand Side Management Facilities remaining in service must satisfy the Ready Reserve Standard described in clause 3.18.11A;

to

The total capacity of the generation Facilities remaining in service, which may at System Management's discretion include Demand Side Management, must satisfy the Ready Reserve Standard described in clause 3.18.11A;

- b. Revision to clause 3.19.6(a) from:
