- c. to avoid discrimination in that market against particular energy options and technologies, including sustainable energy options and technologies such as those that make use of renewable resources or that reduce overall greenhouse gas emissions
- d. to minimise the long-term cost of electricity supplied to customers from the South West interconnected system and
- e. to encourage the taking of measures to manage the amount of electricity used and when it is used.

Synergy sees this proposal as being consistent with the WEM objectives, by facilitating a. (above) ↗  
to promote the economically efficient, safe and reliable production and supply of electricity and
