

- (a) to promote the economically efficient, safe and reliable production and supply of electricity and electricity related services in the South West interconnected system;
- (b) to encourage competition among generators and retailers in the South West interconnected system, including by facilitating efficient entry of new competitors;
- (c) to avoid discrimination in that market against particular energy options and technologies, including sustainable energy options and technologies such as those that make use of renewable resources or that reduce overall greenhouse gas emissions;

- (b) *to encourage competition among generators and retailers in the South east interconnected system including by facilitating efficient entry of new competitors*

The proposed changes will provide clarity to Participants and potential investors in regard to payments for Reserve Capacity tests. The IMO considers that the proposed changes, therefore, is therefore consistent with the operation of objective (b) of the Market Objectives.

- (c) *to avoid discrimination in that market against particular energy options and technologies including sustainable energy options and technologies*
