Fax:	(08) 9254 4399
Email:	jacinda.papps@imowa.com.au
Organisation:	IMO
Address:	Level 3, Governor Stirling Tower, 197 St Georges Terrace, Perth
Date submitted:	18 March 2011
Urgency:	Medium
Change Proposal title:	De-registration of Rule Participants who no longer meet registration requirements
Market Rule(s) affected:	2.17.1, 2.31.13 new clauses 2.32.7A, 2.32.7B, 2.32.7C, 2.32.7D, The Rule Change Proposal should explain how it will enable the Market Rules to better contribute to the achievement of the wholesale electricity market objectives. The objectives of the market are:

- (a) to promote the economically efficient, safe and reliable production and supply of electricity and electricity related services in the South West interconnected system;
- (b) to encourage competition among generators and retailers in the South West interconnected system, including by facilitating efficient entry of new competitors;
- (c) to avoid discrimination in that market against particular energy options and technologies, including sustainable energy options and technologies such as those that make use of renewable resources or that reduce overall greenhouse gas emissions;
- (d) to minimise the long-term cost of electricity supplied to customers from the South West interconnected system; and

Details of the proposed Market Rule Change

to pay the de-registration application fees to de-register themselves. Even if the IMO removes the fees for de-registration¹ it should be noted that there are some instances where the IMO would still need to initiate the de-registration process.

In situations where the Rule Participant no longer meets the requirements of its original registration, the IMO considers that it should be able to de-register the Rule Participant without the need to go to the ERB.

Proposal

The IMO proposes to be able to de-register a Rule Participant if it is clear that the Rule Participant no longer meets the requirements of its original registration as stated in clause 2.28.19 of the Market Rules.

The IMO proposes the following process:

The IMO will identify that the Rule Participant no longer meets the criteria for registration outlined in clause 2.28.19;

The IMO will prepare and issue a Registration Correction Notice which includes a proposed date for de-registration. This notice will allow 90 days for the Rule Participant to make submissions to the IMO stating any reason why the IMO should not de-register the participant and how it can correct the situation;

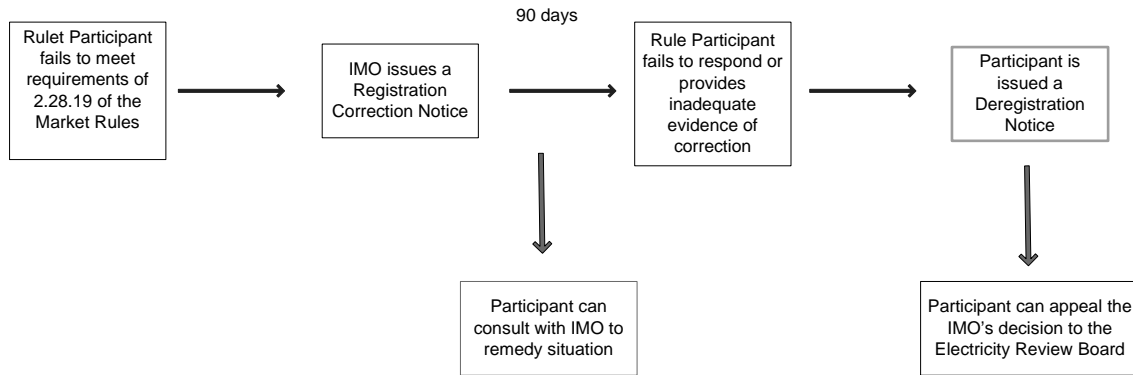

In cases where the IMO does not receive any submissions from the Rule Participant at the end of the 90 day period (outlined in the Registration Correction Notice), or the Rule Participant does not provide the IMO with sufficient evidence proving that it has the potential to remedy the situation, the IMO will issue a De-registration Notice formally notifying the Rule Participant that it will cease to be registered from the time and date specified in that De-registration Notice. The IMO must also de-register all of the Facilities (if there are any) registered by the Rule Participant by the time specified in the notice (clause 2.32.7), unless these Facilities hold Capacity Credits;

In situations where the Rule Participant makes a submission (on the Registration Correction Notice) the IMO must consider it before making a decision;

In accordance with the other de-registration processes within the Market Rules, this proposal does not affect any rights, obligations or liabilities arising under or in connection with these Market Rules prior to the time the Rule Participant ceases to be a Rule Participant; and

The Rule Participant will be able to appeal the IMO's decision to de-register it to the ERB (this will be facilitated by adding the clause which enables the IMO to make a decision to de-register a Rule Participant to the list of Reviewable Decisions. The IMO acknowledges the need to liaise with the Office of Energy to ensure that this amendment is also reflected in the Electricity Industry (Wholesale Electricity Market) Regulations 2004).

For a graphical representation of the process, please see below.

2) Explain the reason for the degree of urgency:

The IMO proposes that this Rule Change Proposal be progressed through the Standard Rule Change Process.

3) Provide any proposed specific changes to particular Rules (for clarity, please use the current wording of the Rules and place a ~~strikethrough~~ where words are deleted and underline words added)

2.17.1. Decisions by the IMO made under the following clauses are Reviewable Decisions:

- (a) clause 2.3.8;
- (aA) clause 2.5.9;
- (aB) clause 2.6.4(f);
- (aC) clause 2.7.8(e);
- (aD) clause 2.10.13;
- (aE) clause 2.10.14;
- (b) clause 2.13.28;
- (c) clause 2.28.16;
- (d) clauses 2.30.4 and 2.30.8;
- (e) clause 2.31.10;
- (eA) Clause 2.32.7E(b);
- (f) clause 2.34.7;

- (g) clause 2.34.11;
- (h) clauses 2.37.1 to 2.37.3;
- (i) clause 2.37.6 and 2.37.7;
- (j) clause 4.9.9;
- (k) clause 4.15.1;
- (l) clause 4.27.7;
- (m) clause 4.28.7;
- (n) clauses 5.2.6 and 5.2.7;
- (o) clause 5.3.6; and
- (p) clause 10.2.1.

2.31.13. The IMO may only reject an application if:

...

- (e) in the case of an application to register as a Rule Participant in any class where the person has previously been de-registered as a Rule Participant following an order from the Electricity Review Board or de-registered by the IMO under clause 2.32.7E(b), the IMO is not satisfied that person has remedied the reason for or underlying cause of the prior de-registration;

...

2.32.7A The IMO may at any time review whether a Rule Participant registered in the classes outlined in clause 2.28.1(b) or (c) continues to meet the criteria specified in clause 2.28.19.

2.32.7B If the IMO becomes aware that a Rule Participant registered in the classes outlined in clause 2.28.1(b) or (c) no longer meets the criteria to be a Rule Participant, as outlined in clause 2.28.19, the IMO may issue a Registration Correction Notice to

- (d) A date and time for response, which must be at least 90 Days from the date of the Registration Correction Notice;
- (e) A date and time from which the de-registration of the Rule Participant will become effective, should that Rule Participant not provide sufficient evidence under paragraphs (b) or (c).

2.32.7D Where the IMO has issued a Registration Correction Notice it may extend the deadline for:

- (a) correcting the circumstances that are the subject of the notice; or
 - (b) responding to the notice
- for any period that it considers is appropriate in the circumstances.

2.32.7E The IMO must consider any evidence or submissions provided by a Rule Participant in response to a Registration Correction Notice and determine whether:

- (a) It is satisfied that the Rule Participant should remain registered. If so, the IMO will notify the Rule Participant that no further action will be taken; or
- (b) It is not satisfied that the Rule Participant should remain registered. If so, the IMO will issue a De-registration Notice notifying the Rule Participant that it will cease to be registered from the time and date specified in the De-registration Notice and the Rule Participant will cease to be registered with effect from that date and time.

2.32.7F Where the IMO de-registers a Rule Participant it must also de-register all of the Facilities registered by the Rule Participant by the time specified in the De-registration Notice. For the avoidance of doubt, the IMO must not de-register a Rule Participant, if that Rule Participant holds Capacity Credits for any of its Facilities.

Chapter 11: Glossary

De-registration Notice: means the notice issued by the IMO under clause 2.32.7E(b)

Registration Correction Notice: means a notice issued by the IMO under clause 2.32.7B

- (a) Describe how the proposed Market Rule change would allow the Market Rules to better address the Wholesale Market Objectives:

The IMO considers the change proposal to allow the IMO to de-register a Rule Participant, without applying to the ERB, when the Rule Participant no longer meets the requirements of its original registration has the following impacts on the Wholesale Market Objectives:

Impact	Market Objectives
Allow the Market Rules to better address the objective.	a
Consistent with objective.	c, b, d, e
Inconsistent with objective.	

The IMO considers that the proposed amendments will promote Market Objective (a) by ensuring that the IMO does not need to undertake a lengthy and costly process of applying to the ERB should it wish to de-register Rule Participants. The IMO considers that its proposed process is a more economically efficient process than the status quo.

(b) Provide any identifiable costs and benefits of the change:

Costs:

It is expected that the IMO will encounter additional costs associated with the proposal, however, this is assessed to be less than the status quo (i.e. applying to the ERB);

The IMO will need to update some of its internal procedures associated with de-registration. However, these costs are deemed to be within the IMO normal operating costs.

Benefits:

The Proposal will allow the IMO to de-register Rule Participants that no longer meet the criteria to be a Rule Participant as per clause 2.28.19 without the cost and administrative burden of going to the ERB.
