

Wholesale Electricity Market

and Verve Energy does not see why this process should differ from the norm. Such examples are:

- Clause 2.10.2A: Where System Management has decided not to amend or replace a Market Procedure, the reasons for this decision must be published on the Market Web Site;
- Clauses 2.13.6D(b), 2.13.6E(b) and 2.13.6J: System Management to determine the Tolerance Range and/or a Facility Tolerance Range(s) and provide to the IMO for publication on the Market Web Site; and
- Clause 3.18.2: System Management to compile and maintain the list of equipment subject to outage scheduling. This list is to be provided to the IMO for publication.

As such, Verve Energy considers that the exemption details contemplated by this Rule Change Proposal should be published on the Market Web Site rather than System Management's website.

2. Please provide an assessment whether the change will better facilitate the achievement of the Market Objectives.

As outlined in its submission from the first submission period, Verve Energy considers that the proposal will have the following impact on the Wholesale Market Objectives:

| Wholesale Market Objective | Comments |
|----------------------------|----------|
|----------------------------|----------|

3. Please indicate if the proposed change will have any implications for your organisation (for example changes to your IT or business systems) and any costs involved in implementing these changes.

Verve Energy would not require any changes to its IT or business systems, nor incur any organisation costs as a consequence of adopting the changes.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed.

Verve Energy does not need to undertake any actions to implement this Rule Change Proposal.
