Address:	GPO Box 909 West Perth 6872
Date submitted:	24 February 2014

Submission

1. Please provide your views on the proposal, including any objections or suggested revisions

Community Electricity supports the Rule Change Proposal on the grounds that it improves efficiency and reduces costs; it doesn't make economic sense to incentivise early entry of capacity when it is not needed and impose the cost on the market.

2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives

Community considers that the Rule Change is consistent with all the Market Objectives and that Market Objectives a (efficiency, reliability) and d (minimise cost of production) are especially promoted.

3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved

The proposal has no implications for Community.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed

Not applicable
