Submission

1. Please provide your views on the proposal, including any objections or suggested revisions

Community Electricity supports the Rule Change Proposal on the grounds that it is the IMO's responsibility to implement the intent of the Ministerial Direction and to otherwise integrate it with the Market Rules so as to avoid unintended consequences.

2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives

Noting that the Ministerial Direction is not itself at issue in this proposal, Community considers that the Rule Change is consistent with all the Market Objectives and that Market Objectives.

3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved

The proposal has no implications for Community.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed
