

Keep Australia Beautiful Community Litter Grants Recipients 2020-21

Organisation	Project Title and Synopsis	Funds Granted
Boddington RRR	<p>Boddington RRR (Reduce, Reuse, Recycle) Project is aimed at reducing litter and single use plastic a local events. The local group to acquire a trailer and rebuild it to house a commercial dishwasher to be used at community events. Boddington RRR supply cutlery and crockery, as part of their wash up crew to reduce litter and single plastic use.</p>	\$ 5,000.00
Boyup Brook Community Resource Centre (BBCRC)	<p>Refill, not Landfill The aim is to reduce litter made by single use plastic water bottles at local events, by providing a portable water refill station. The refill station will be available for hire to make local events free from single use plastic water bottles, therefore creating less litter. The BBCRC is passionate about providing ways for the community to fight the War on Waste by diverting weekly waste items from landfill. A hireable water station, will enable this work to continue, and it will also help to educate users on the damaging effects litter has on our environment.</p>	\$ 3,750.00
Capel Horse and Pony Club	<p>Eventers Keeping WA Beautiful – Reducing Litter from Single Use Plastic Bottles and Coffee Cups/Lids. This project is aimed at 1) Reducing litter by providing water in reusable water bottles and coffee in reusable cups and installing a water tank that can be refilled with potable water and 2) Educating about the effect that single use plastic water bottles have on our environment when they end up as litter and the eventing community to reduce litter and think about the single use plastic they are using and use reusable instead.</p>	

<p>Newdegate Community Resource Centre Inc.</p>	<p>Refill, Re-use, Reduce Newdegate currently struggles with a single use plastics litter problem. Due to the taste of local scheme water all available water is sold in disposable plastic bottles. To solve the litter problem a campaign will bring awareness to the detrimental effect single use plastics have on our environment by educating key stakeholders. A portable water re-fill station will be purchased and lent out to community clubs and events to massively reduce the use of single use plastics.</p>	<p>\$ 3,420.00</p>

Ocean Remedy

Magnifying Microplastic Pollution in WA

In conjunction with AUSMAP (Australian Microplastic Assessment Project), a nationwide program that trains citizen scientists to collect valuable data on microplastics utilising a standardised methodology, the project will increase the knowledge and capacity of communities to 'take charge' of the plastic litter problem and magnify community awareness of these issues, whilst providing education about how to reduce littering in their local area. This project provides vital data on the issue of microplastic pollution that is comparable with
